WEB PORTAL WORKFLOW

1. Suspecting OSA, healthcare provider interviews patient about sleep health and medical history to determine candidacy for home sleep testing.

2. Healthcare provider orders home sleep test, prepares monitor and instructs patient on proper setup and use of sleep monitor.

3. Patient leaves office same day prepared to self-administer home sleep test in the comfort and convenience of his own home.

4. Patient returns sleep study kit to office. Sleep test data is checked into portal for review and scoring by sleep technologist.

5. Board-certified sleep physician interprets sleep study and makes recommendation for treatment.

6. Follow-up visit with patient to review test results, treatment recommendations and long-term management, ensuring treatment effectiveness.
